Homapon Legazpi City

Homapon High School 2017 – 2021

Homapon Legazpi City

Homapon Elementary School 2011 – 2017
Homapon Legazpi City

Skills

- Computer Literate
- Good Communication Skills
- Hardworking, responsible and punctual
- Ability to learn quickly
- Web Development
- God fearing
- People oriented
- Willing to work under time pressure
- IT Support and Troubleshooting

Languages

- English
- Filipino

Technical Skills

Programming Languages: JavaScript, Python, HTML, CSS, TypeScript (if applicable)
Web Development: React, Node.js, REST APIs, responsive UI development
Software Development: Debugging, troubleshooting, code review, problem-solving, application testing, and quality assurance
AI Tools: AI-assisted coding, prompt engineering, reviewing AI-generated code, and validating application functionality
Tools and Platforms: Git, GitHub, VS Code, OpenCode, PostgreSQL
Professional Skills: English communication, technical documentation, attention to detail, analytical thinking, and teamwork

Hobbies and Interest

- Learning new technologies
- Reading
- Playing online games
- Listening to music
- Watching tech tutorials

Certificates

Python Essentials 1
DICT-ITU DTC Initiative through the Cisco Networking Academy program

Projects

https://github.com/bertski-crypto/cyberbreach, *CYBER//BREACH — AI Network Defense Simulator*
- Developed an interactive cybersecurity simulation with network monitoring, threat detection, firewall controls, and mission-based objectives.
- Worked with frontend and backend functionality, API integration, and PostgreSQL.
- Tested application behavior, debugged issues, and improved system reliability.

- Used AI-assisted development tools to help build and refine application features.

https://github.com/bertski-crypto/immunization-monitoring-system,
AI-Powered Child Immunization Health Monitoring and Management System -
- Developed a web-based system for managing immunization records and monitoring vaccination schedules.
- Worked on application features, data management, and backend integration.
- Tested system functionality and addressed issues to improve usability and reliability.

https://github.com/bertski-crypto/ITSNMP, *IT Support and Network Management Portal*
- Developed a web-based portal focused on IT support and network management.
- Worked on application functionality and technical workflows for IT support services.
- Applied troubleshooting and testing practices to identify issues and improve functionality.
